

Every Child is Gifted!

An Overview and Application of the Theory of Multiple Intelligences

*Based on the work of Howard Gardner and Thomas Armstrong

In this seminar, participants will learn:

- The definition and concept of the theory of Multiple Intelligences.
- An explanation of the Eight Intelligences and criteria for inclusion.
- Demonstration of teaching in all eight intelligences using a Multiplication example.
- Practice application of Multiple Intelligences using a discipline example.
- Specific teaching tools for each intelligence.
- Resources available for further information.

Presentation outline is based on Health Canada, Growing Miracles (Three Cheers for the Early Years), Parent Effectiveness Training, and Invest in Kids Recommendations.

“I had heard presentations on Multiple Intelligences before and wasn’t expecting to get as much out of this as I did. Judy had a slightly different take on the topic which was refreshing, and to deliver the presentation in all eight intelligences shows her skill as an interesting presenter.” Participant, Canadian Association of Family Resource Programs National Conference, April 29, 2011, Montreal

Presented by:

**Judy Arnall, BA, International award winning Speaker and best-selling Author of
“Discipline without Distress: 135 tools for raising caring, responsible children without time-out, spanking, punishment or bribery.”**
